I/ we do agree that photos and film recordings may be taken and published of me/ us in connection with the event this registration form refers to. This confirmation of consent also applies in terms of publications within the USCA magazine, the USCA homepage and all other publications as issued by USCA.

The participants are – as a matter of fact – aware that during and after the event the animals are to be treated in accordance with the standards and laws of animal protection. The same applies for the preparation of the event. It is not admitted to subject the animals to coercive measures, or any other kind of treatment contrary to the laws and regulations of animal protection. In case of a violation of the above mentioned by the participant to the event or a third party, the dog affected will immediately be excluded from the competition and the initiation of internal legal procedures against the member to USCA will be launched.

I/ we do confirm that we read and accepted the admission approval.

## Mother-Family

A Mother-Family that belongs to one individual female has to exclusively consist of dogs, that show the same line of ancestry in terms of the mother-dog. Also, the dogs have to be born to the same kennel name. A minimum of 4 dogs – male or female – has to be presented. 50 % of the dogs presented in the maternal lineage must have earned a conformation show rating of at least “good” in the current 2019 USCA Sieger Show. For further details please refer to the May issue of the SV magazine or [simply click here](#).

### Registration of a Mother-Family

The registration is submitted by the breeder. The breeder enters the name of the female into the registration form for whom a mother-family shall be presented.

Following this, the breeder fills in his/ her kennel name as well as his/ her address details.

Then, all dogs shall be listed that origin from his/ her kennel. It is mandatory that the female for whom a mother-family shall be registered is in the **dam line at 2, 6, 14, 30** of the listed dogs (**please refer to the back of a pedigree for examples**).
